Typical Applications and Products

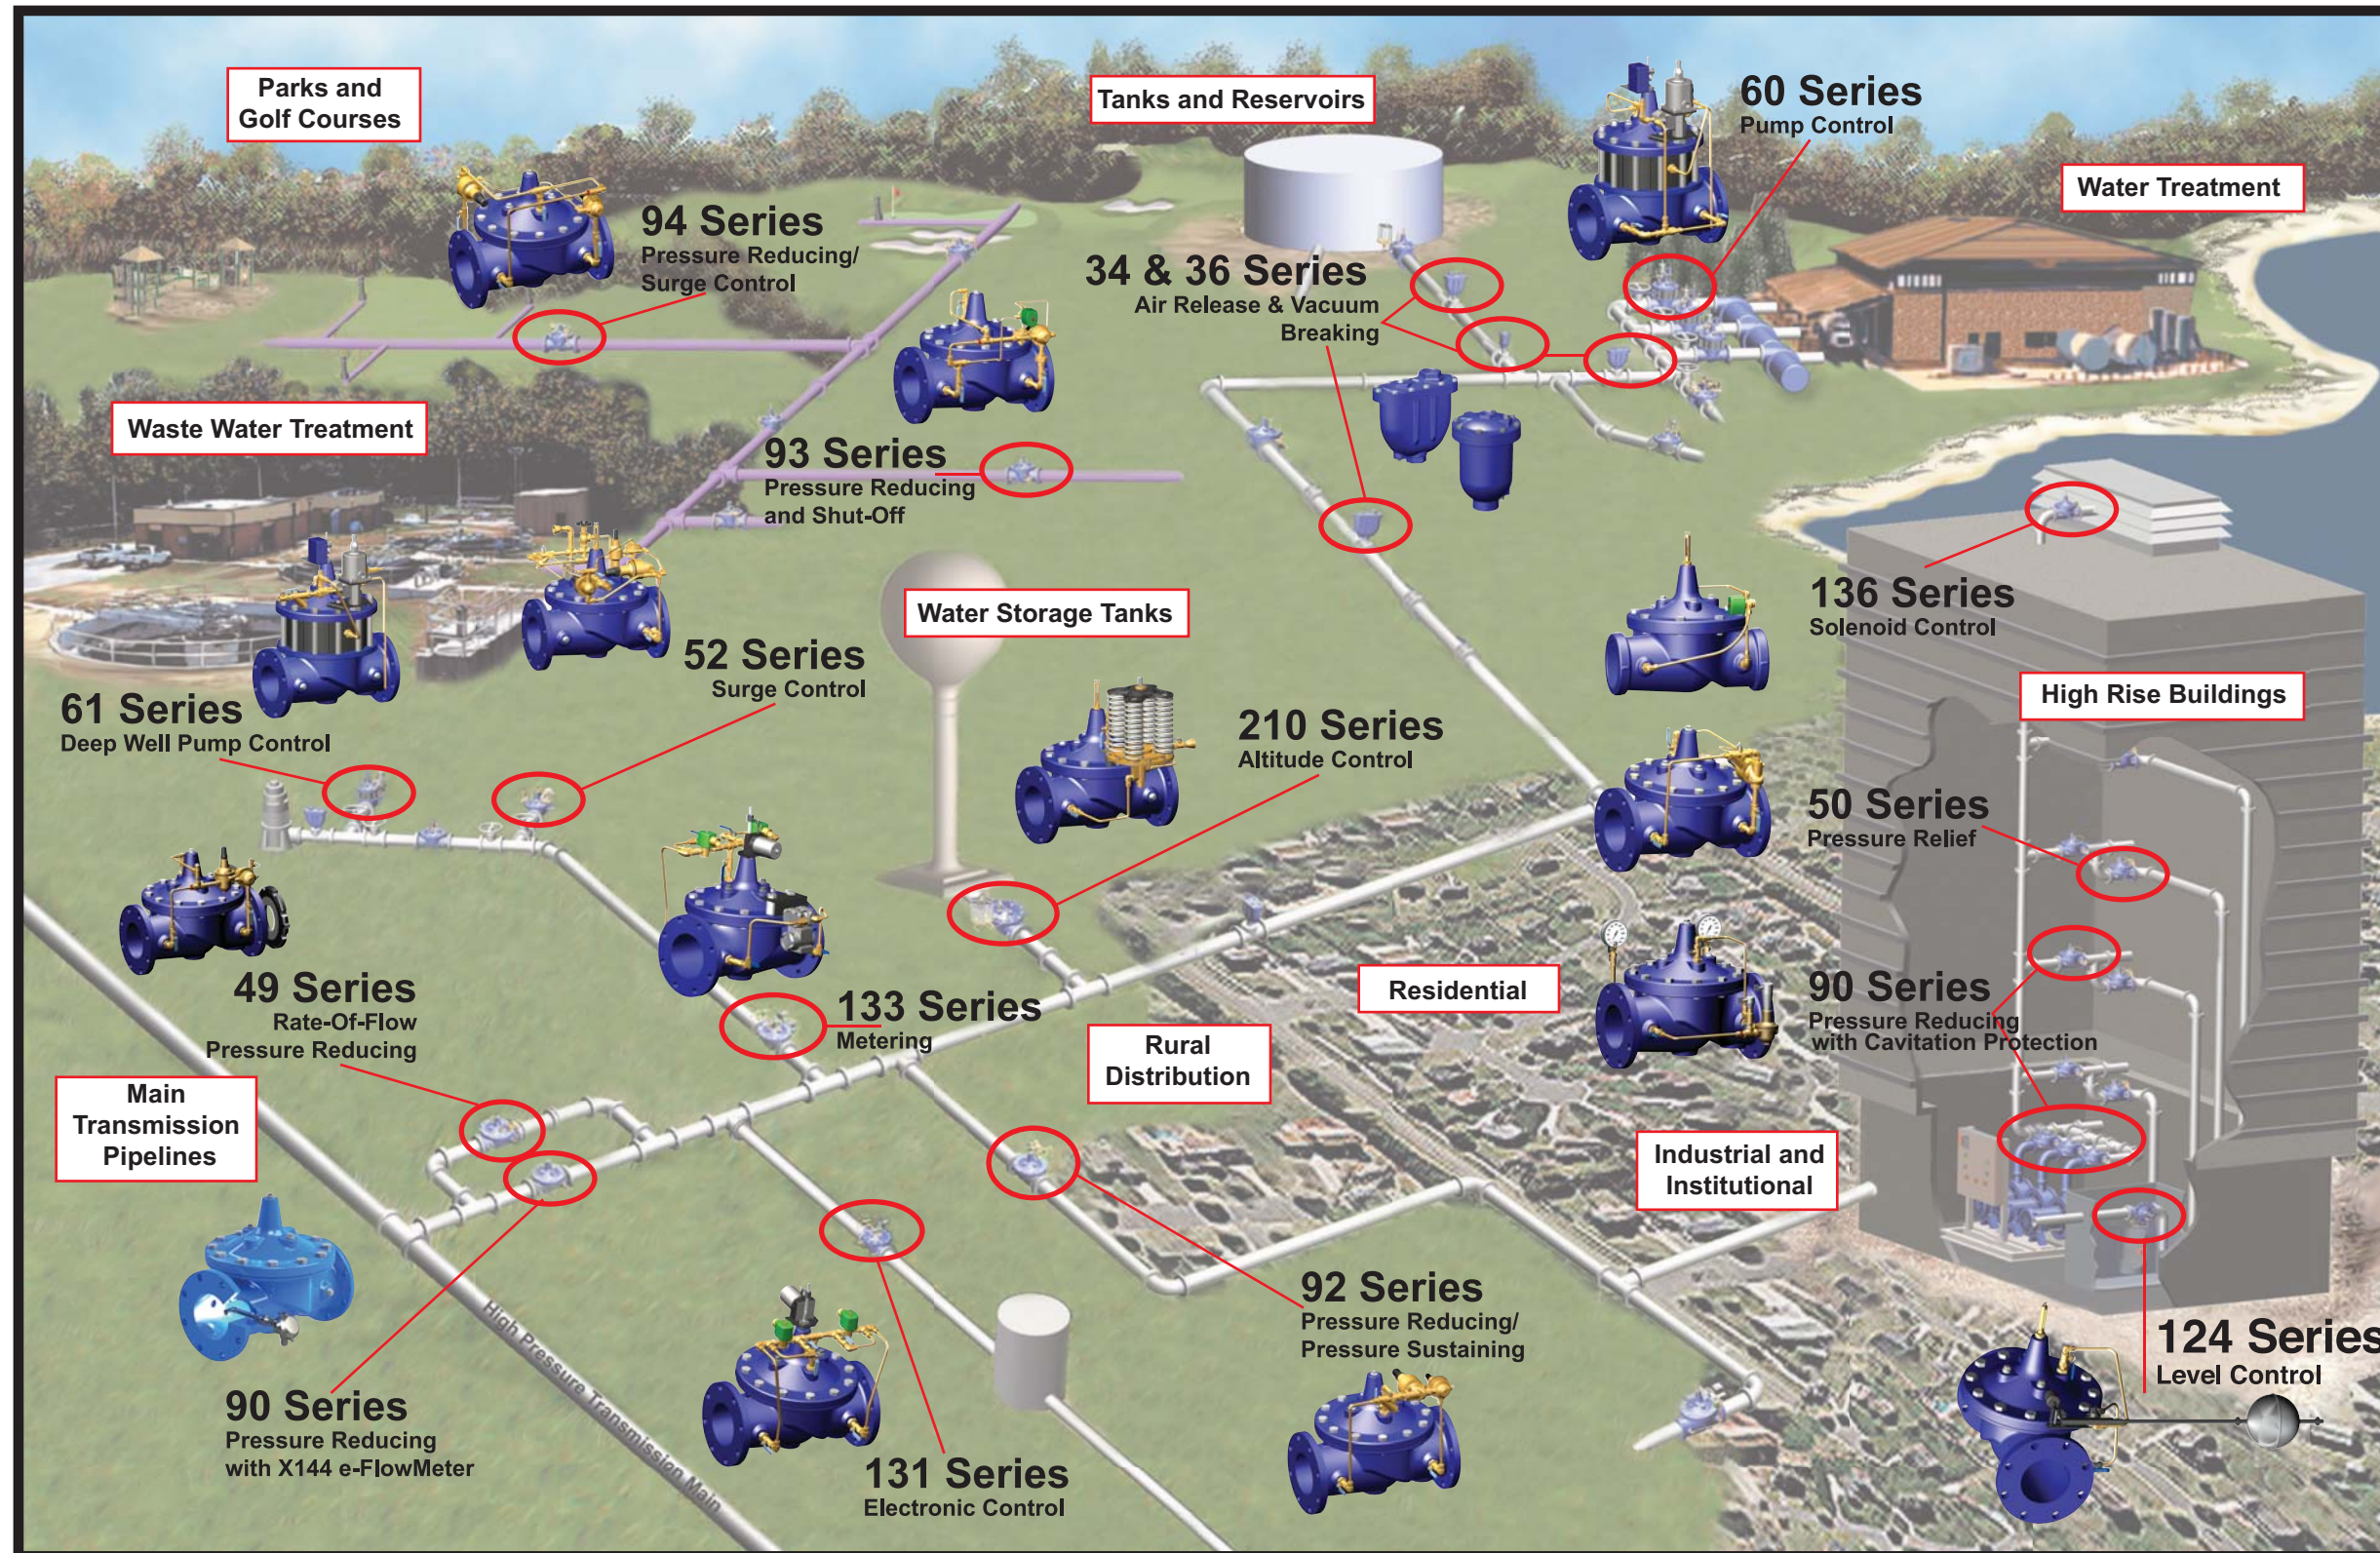

- Pressure Reducing
- Pressure Relief
- Pressure Management
- Rate-Of-Flow Control
- Level Control
- Electronic Control
- Solenoid Control
- Cavitation Protection
- Electronic Flow Metering
- Pump Control
- Return Flow Protection for Variable Speed Drive Pump Systems
- Mixing
- Surge Control
- Flushing
- Air Release
- Vacuum Breaking
- Dust Abatement
- Wastewater Air Valves

Markets Served

- Waterworks Distribution
- Water Treatment
- Wastewater
- Commercial & Residential Construction
- Reclaimed Water
- Fire Protection
- Irrigation
- Industrial
- Mining

Special Capabilities

- Advanced Electronics for:
 - Control
 - Power
 - Information
 - Communication

Retrofittable Accessories for Advanced Performance

- KO Anti-Cavitation Trim
- X141 Pressure Gauges
- X144 e-Flow Meter
- X143 Series Power Generators
- 33 Series Electronic Pilot Controls
- X145 Electronic Display
- Hydraulic Back-up for Electronic Valves
- CPC Position Controller
- CTC Programmable Timer Control
- X101 Valve Position Indicator
- X117 Series Valve Position Transmitters
- CK2 Isolation Valves
- X105 Limit Switch Assemblies
- X43 H-Strainer
- CV/CVS Speed Control
- Pilot Systems Strainers and Restriction Assemblies
- X140-1 Locking Security Cap for Pilot Controls

Advanced Protection for Harsh Environments

- Fusion-Bonded Epoxy Coating
- Stainless Trim
- Stainless Steel Bodies & Covers
- Delrin® Stem
- Dura-Kleen® Stem

Cla-Val Products are certified by the Water Quality Association. Meets Current Lead Content Requirements.

From basic hydraulic functions to advanced electronic control, Cla-Val has a solution for every application.
