

XLReporter

powered by SmartSights

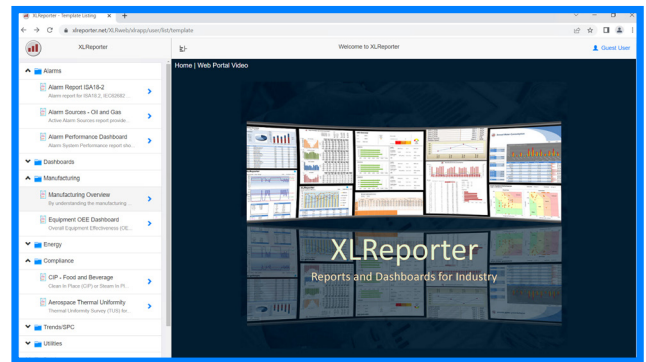

WE ARE EXCITED TO INTRODUCE XLREPORTER, THE NEWEST ADDITION TO THE SMARTSIGHTS SUITE.

XLReporter takes our reporting capabilities to unprecedented levels, offering secure, efficient reporting by harnessing the power of Microsoft Excel® without the need for Excel itself!

XLREPORTER: EMPOWERING DECISION-MAKING

XLReporter isn't just a reporting tool. It provides clear insights for effective decision-making and action, empowering you with operational intelligence to elevate performance. It offers easy access to data from PLCs, historians, alarm history, and IoT devices, coupled with built-in analytics that transform raw data into actionable insights.

AUTOMATED REPORTS AND DISTRIBUTION

XLReporter automates the reporting process. It produces reports on-demand, on-time, or on-event, then distributes them directly to your preferred destinations, thus streamlining the decision-making process and enhancing operational efficiency.

| Location | Module | Alarms | Report Start Date |
|------------|--------|--------|-------------------|
| Alamogordo | GA18-2 | 400 | 8 Jun 20 |
| Alamogordo | GA18-2 | 10 | 15 Jun 20 |
| Alamogordo | GA18-2 | 4 | 20 Jun 20 |

| Metric | Value | Target | Status |
|----------------------------------|------------|-----------|--------------|
| Average Alarm Rate (per hour) | 584.29 | 24.35 | Unacceptable |

FEATURES AT YOUR FINGERTIPS

XLReporter brings a plethora of features at your fingertips. With over 50 ready-to-use templates, you can start reporting in minutes. Customize your reports using the Template Studio, equipped with familiar workbook features and industry-specific components, or easily import any existing workbook.

EMPOWER YOUR TEAM

XLReporter empowers your team by providing consistently formatted reports and forms from one central location. Secured and personalized access via user profiles enables you to produce, view, print, email, and share reports from any web browser.

TAKE REPORTS TO ANOTHER DIMENSION

XLReporter provides layers of report analysis which would otherwise require intense manual effort or programming to accomplish.

Conditional summaries, analytical calculations, runtimes and OEE KPIs are just a few examples of the “out of the box” capabilities.

FEATURES

- Automate compliance reports with existing government forms
- Template Studio to produce workbook templates
- Award winning reporting engine
- 21 CFR Part 11 features
- Report automatically, periodically or on events
- Report on-demand, locally or from mobile devices
- Publish reports as workbooks, web pages or PDF
- Distribute reports by email, web portal or FTP
